

North Sky Yurts is a Yurt and Bell Tent Hire company based in Leeds. We recognise that our business results in carbon emissions and generates waste and are committed to continually reviewing and reducing the impact we have on our environment.

WE WANT TO

Reduce the overall impact we have on the environment as a result of running our business

Share our sustainable practices with our customers and fellow suppliers to help inspire change

Be a fair and inclusive employer and create jobs in the local area

Act in an environmentally responsible way

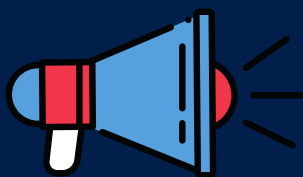

WE'LL DO THIS BY

Ensuring our equipment is reusable and hard wearing to ensure it is long-lasting

Having an open workspace where employees can voice their opinions freely and allow for professional challenge

Offsetting carbon emissions through tree planting schemes

Sourcing equipment which is made from recycled materials and second-hand when we can

Prioritising working with local businesses and suppliers who share our sustainable values

Finding other uses for equipment no longer needed which avoid items ending up in landfill

Car sharing as much as possible

Continuing to research other ways in which we can, not only offset but, reduce our carbon emissions

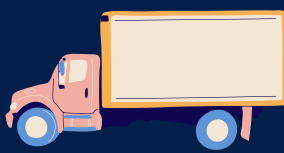

Creating an inclusive hiring process

WE COMMIT TO

Planting at least one tree for all bookings via our partner More Trees

Prioritising bookings within 50 miles of our base in Yorkshire to reduce the miles we travel and resulting carbon emissions

Creating opportunities within the local Leeds area

Using the 3R's – Recycle, Reclaim and Reuse where possible and encouraging our customers to do the same

Recycling all faulty airbeds with a verified recycling partner

Only travelling when we need to and working from home when we can
